MAYOR'S INAUGURAL ADDRESS

To the Members of the Council
of the City of Kingston.

Gentlemen:—

Ninety-five years ago the election of the first Mayor of Kingston took place. In 1838 Thomas Kirkpatrick was elected Mayor by his fellow-councillors, Kingston then being a town. From 1838 to 1846 six different citizens filled the Mayor's chair. In 1846 Kingston became a City and from 1846 to 1932 fifty-eight different Mayors have held office. You have just witnessed the Inauguration of the sixty-fifth Mayor of Kingston, and as such I wish to welcome and congratulate you on your election as Aldermen for the year 1933. May I extend a special welcome to those of you who are serving in Council for the first time. Many well-known faces appear before me, many new faces also, many are missing and their loss will be sorely felt. Some have retired, some met defeat at the polls and one has passed to the Great Beyond. The late Alderman E. J. Dunphy was a man of sterling character, who gave many years of his life to the city. He was always a general favorite and his loss will be keenly felt by his friends.

At the conclusion of my remarks, I shall ask you to rise and observe one minute of silence in honour of our departed confrere.

Gentlemen, it hardly seems necessary for me to ask you for your whole-hearted co-operation. During the five years I was privileged to sit in Council my predecessors enjoyed the fullest confidence and co-operation of the Aldermen and as a result the business of the City was carried on in a dignified and efficient manner. May I ask that you will honor me with the same treatment, so that the record of this year's Council may be one of which we will all be justly proud. Active debate and constructive criticism will always be welcome, because only through their medium can the proper decisions be arrived at for the many weighty problems upon which you will be called to pass judgment.

The year before us promises to be a very trying one. Rare judgment, patience and executive ability will be necessary to keep the wheels moving smoothly. Three major problems confront us:

1. Unemployment and Relief.
2. Taxes.
3. Amelioration for the above evils.

Let us face the issue bravely. Unemployment has spread over the world like a great octopus, his tentacles endeavoring to smother and paralyze every known country. Kingston cannot correct the whole evil, but we must be prepared to assist and help solve a riddle which has completely foiled the cleverest men in the political and economic world to-day.

We are all agreed that Kingston's unemployed and needy should receive assistance. At the same time we must look for the honest co-operation of these people in order that our economic structure may not become undermined. To date the financial condition of the City of Kingston is sound, but if expenditures of the present magnitude continue the time will soon come when our credit will not only be impaired, but will cease to exist.

The Public Welfare Board of the City has been doing a magnificent work, and too much credit cannot be given them.

The system is not perfect, no system is, and if it can be improved it is our duty to see that it is done. All relief work in its many forms has to be paid for. The only way we have to raise the necessary money is by taxation. Taxes have long since reached the breaking point and relief from the burden is being demanded on all sides. To adjust these two problems will be your principal work this year. Rigid economy should be our watchword. Capital expenditure except where absolutely necessary should cease for this year. Associations, Clubs and Societies, who have been in the habit of receiving grants from the City may expect a reduction or suspension of their grant until better times appear. May I ask that each spending committee, when the time comes to prepare its budget, do so in such a manner that the present tax rate at least be maintained and if possible lowered. Let us endeavor to secure the most intimate co-operation of the Municipal Board of Education, and the Public Utilities Commission, in order that they may give us every assistance to relieve the taxpayers' burden.

How are we to cure the burdens of unemployment and over-taxation? The things I have mentioned are all stepping stones. Can we do more? If labour can be created what a joy it would be. Never before has the labor situation been so critical. In my Nomination speech, I stated that I was not in favour of the dole as compared to providing work for the unemployed. With this end in view, I hope it will be possible to do away with the present city dump and transform it into a park and playground together with certain building lots. Plans and specifications are nearing completion. The work will be 100% under the Government Relief Scheme and no fill will be carted in except for any top dressing which may be necessary. This means practically 100% work for the unemployed. Complete plans, specifications and costs to the city will I hope be brought in by the proper committee.

You are all familiar with the negotiations which have been carried on by Mayor Wright and his Committees, which have appeared in the Press, in an endeavor to have Kingston linked up with No. 7 Highway. The Ontario Government has given the proposal most favourable consideration and the matter is now before the Cabinet Council. We can do nothing further until after the meetings of the several County and Township Councils in January, but with their assured cooperation and the necessary impetus we can give, I am firmly convinced that this road will be constructed. The benefits to Kingston will be many fold. Trade from the North will again flow into Kingston where it rightly belongs. Work will be provided for our unemployed, visitors will have a direct entry through Kingston into the unparalleled Tourists' Paradise, which lies north of us, all of which will react to the benefit of our citizens.

A large part of the work normally carried on by the Board of Works Department is now being handled through the Public Welfare Board; we may, therefore, expect a considerable reduction in the estimates of the Board of Works.

Kingston Harbour Improvement Committee should be very active this year. The possibilities for a new dry dock are excellent and the completion of the work at Little Cataraqui Bay should be urged with renewed vigor.

As new projects confront us let us be prepared to deal with them in an efficient businesslike manner, always having in mind the best interests of the City of Kingston.

In conclusion may I ask that every Alderman give the best that is in him to promote and further the welfare of our city. Our duties are many, the task not easy, but with your assured co-operation I feel we may look forward with confidence.

REPORTS.

Ald. Peters presented report No. 11 from the Board of Works as follows:—

Kingston, Feb. 1st, 1933.

To the Mayor and Council of the City of Kingston.

Gentlemen:—The Committee on Board of Works begs leave to report and recommend as follows:—

1. That E. R. Parkin be paid the sum of $15.00 as settlement of claim for damage caused by flood from a broken sewer pipe in the City's drain. This offer is without prejudice.

2. That the sewers at the following outlets be extended as follows in accordance with the Report of the City Engineer.

Beverly Street. Last year this outlet was diverted to discharge under water. Lower levels would make it advisable to extend this outlet another 14 feet at an estimated cost of $60.00.

Albert Street. This outlet was extended last year but the water and ice broke off the extended piece which has disappeared. This broken piece should be replaced at an estimated cost of $75.00.

St. Lawrence Avenue. This outlet was extended last year but extension broke off and was lost. This broken piece should be replaced using a wider coupling at an estimated cost of $30.00.

L. University Avenue. This outlet is discharging out of water and should be extended 30 feet to discharge under water. It will be necessary to construct a crib 6′ x 6′ to keep the end of the sewer off the bottom as the wash in this corner fills the pipe continuously with stones. This pipe required is available on the site. This work must be done off the ice. Estimated cost of $75.00.

Emily Street. One length of steel pipe broken off at shore line should be repaired by cutting pipe and putting on sleeve. Estimated cost of $25.00.

Maitland Street. Outlet extended last year connection from Yacht Club broken off in about 12 feet of water. It will be necessary to employ the services of a diver to make the connection. Estimated cost of $150.00.

Princess Street. This is wooden box sewer. It will be necessary to plank over a portion of this which is exposed. Estimated cost $15.00.

Queen Street. The portion of this sewer that extends through the M. T. Co. dock is broken at the outside end of the dock for a length of 75 feet. This has been broken by boats banging into it. It will be necessary to replace this 75 feet of pipe and to place some protection for the pipe. Estimated cost $300.00.

The Public Utilities use this outlet extensively for effluent from gas plant and should be asked to pay one-half the cost of this work.

King Street. This outlet is discharging on dry land and causing considerable nuisance. It will be necessary to construct a manhole at the end of the present outlet and continuing to the end of Sowards' dock with a 36-inch pipe, the end of the pipe to be supported on a crib and to fill around part of pipe with stone for protection. Estimated cost $500.00.

Bay Street. This outlet was extended 14 feet last year and should be extended another 14 feet the end to be supported by a crib and the entire pipe covered with stone to protect from unloading of timber from cars. Estimated cost $100.00.

North Street. This outlet is discharging on dry land and creating considerable nuisance. It will be necessary to build a manhole and extend the sewer with 70 feet of 36-inch pipe the end of the pipe to be supported on a crib. Estimated cost $400.00.

Cataraqui Street. This pipe was completely rotted away and has been built over by boat houses. The condition at this outlet is very objectionable. It will be necessary to renew 60 feet of 15-inch pipe and to direct it away from the boat houses. Estimated cost $100.00.

Moved by Ald. Peters, seconded by Ald. Hanson, (2) that the report of Board of Works be received and adopted.

—Carried.

Ald. Anglin presented Report No. 32 from the Committee on Finance and Accounts containing the Budget for 1933 as follows:

Civic Budget, 1933

Kingston, Ont., April 16, 1933.

The Committee on Finance and Accounts in submitting the estimates for the year 1933, begs leave to report as follows:

The Bonded Debt of the City to 31st December, 1932, is $3,807,017.20, made up as follows:

Water Works		$ 17,000.00
Light Works		379,850.00
SCHOOLS:—		
Public	$336,649.65	
High	71,900.00	
Technical	366,803.00	
		775,352.65
LOCAL IMPROVEMENTS:—		
Corporation's Portion	731,228.27	
Owners' Portion	685,186.28	
		1,416,414.55
General Purposes		1,218,400.00
		$3,807,017.20

The amount of the Sinking Fund as on Dec. 31st, 1932, is $1,303,418.75, and of this amount $1,228,819.51 is invested in Government and Municipal Debentures and $74,599.24 is on special deposit in the Bank.

The amount to be levied for the Sinking Fund this year is $176,531.91, the parties specially benefitted paying $56,510.13 and the City generally paying $120,021.78.

Your Committee has been obliged to provide $51,200 in excess of the requirements for 1932. This amount is made up as follows:

Surplus for 1931	$27,000
Highway Maintenance	4,700
Deficit for 1932	4,100
Relief Administrations	5,300
Suburban Road Area	7,000
Hospitals	3,000

The estimated requirements for Education including the Budget as submitted by the Municipal Board of Education totals $288,371.63, this is $3,028.37 less than last year.

The estimated revenue for 1933 based on last year's tax rate about equals the revenue for 1932.

The estimated expenditures based on the estimates submitted by the various departments including uncontrollable expenditures totals $51,300 in excess of last year.

In order to balance the Budget for 1933 and maintain last year's tax rate it has become necessary to reduce the estimates of the various spending committees to a minimum consistent with efficiency. This can only be brought about by making drastic reductions in all departments including a ten per cent. reduction in salaries.

The sum of $17,500 being that part of the surplus earnings of the Sinking Fund over and above a five per cent. reserve established as a provision against market fluctuations and possible losses has been applied to revenue.

Your Committee therefore recommends that a rate of 27.12 for general purposes and 13.88 for education purposes, making a total of 41 mills on the dollar be placed on this year's ordinary assessment and that a rate of one mill on the dollar for the collection and disposal of garbage be imposed on the assessment liable thereto.
